INTRODUCING AN ENGINEERING BREAKTHROUGH FROM PRINCE. By replacing traditional pin-sized string holes with giant O-ports, our driven and never-satisfied engineers reinvented the badminton racquet – creating a super aerodynamic frame with a more responsive stringbed. This increases the sweet spot by up to 54% which means you hit your best shots more often. What's truly impressive is that we did it all without enlarging the racquet head, increasing its length, or adding weight. So it's easy to manoeuvre and quicker through the air. Available in two models: O³ Red and O³ Silver. **Stop trying to hit a Sweet Spot. Start hitting a Sweet Zone.**

O-ports expand the conventional sweetspot, turning it into a Sweetzone, allowing players to hit their best shots. More often.
